Hand-drawn binary multiplication on a whiteboard. The whiteboard shows two multiplication problems. The first is $4 \times 1 = 01$, with a carry of 0 and a result of 01. The second is $4 \times 3 = 11$, with a carry of 0 and a result of 11. To the right of the whiteboard, there are handwritten notes: $(4 \times 1) \times 3 = 1$ and $n \times 3 = 3$. A man is visible in the bottom right corner of the whiteboard frame.
